## National Cancer Survivors Day®

On June 5th, 2016, National Cancer Survivors Day® (NCSN), Hematology Oncology Associates of CNY will honor those in our community who are living with and beyond cancer. NCSN is a day for everyone, whether you're a cancer survivor, a family member, friend, or medical professional.

This day provides an opportunity for America's more than 14.5 million cancer survivors to connect with other survivors, celebrate milestones, and recognize those who have supported them along the way. According to the National Cancer Survivor's Day® Foundation, "A *survivor* is anyone living with a history of cancer – from the moment of diagnosis through the remainder of life."

Hematology Oncology Associates will join hundreds of communities worldwide in celebrating life as part of the 29th annual National Cancer Survivors Day®. Thousands of cancer survivors, caregivers, family members, friends, and healthcare professionals will gather across the globe to honor cancer survivors and to show the world that life after a cancer diagnosis can be fruitful, rewarding, and even inspiring.

As the organizers of this local event, we are encouraging everyone to attend the celebration to show their support for our community's cancer survivors, their families, friends, and healthcare providers. The event is a cooperative effort of Hematology Oncology Associates and the National Cancer Survivors Day® Foundation, and is supported nationally by *Coping® with Cancer* magazine.

We are grateful to the organizations who helped sponsor HOA's celebration!

# National Cancer Survivors Day®

National Cancer Survivors Day® is an annual, treasured **Celebration of Life** that is held in hundreds of communities nationwide, and around the world, on the first Sunday in June. It is a

**CELEBRATION** for those who have survived,  
an **INSPIRATION** for those recently diagnosed,  
a gathering of **SUPPORT** for families,  
and an **OUTREACH** to the community.

*The Mission of Hematology-Oncology Associates of CNY is to provide the highest level of quality care in a healing environment for the mind, body and spirit of patients dealing with cancer and blood disorders.*
